digitalpublications@amazon.com

dtp-support@amazon.com

*** Images on the Kindle are B/W

*** Kindle for PC or Iphone are full cover

*** Limit images

*** Use plenty of hotlinks

*** Display Area max. 520px X 622px

*** Kindle will resize to fit and distort

*** One side needs to be at max.

*** Cannot center images vertically

*** Images are pages

*** Name your images page7.jpg page15.jpg etc.

*** Create a single folder w/ all images

*** Add an "index.html" file (interior document)

*** To call images use image file names like

*** To Force Kindle to a new blank page insert <mbp:pagebreak />

*** Create a single zip file out of the folder (named correctly e.g. 13digitisbn.zip)

*** You can use DreamWeaver, KompoZer, Notepad etc for html

*** For PDF to html conversion, email the file to pdf2html@adobe.com

*** Creating Clickable TOC

*** In Word, create a Table of Content page

*** Highlight chapter 3 ==> click insert==>select hyperlink==>choose add a link current document

*** You need to insert bookmarks==>scroll==>curser beginning paragraph==>insert==>bookmark==>enter name of bookmark==>OK

*** Download Mobipocket Creator
