

Session 6:

Putting Everything Together

Ace List Building – Session #6

Putting Everything Together

As we are about to draw a close in the Ace List Building course, we will finalize and conclude everything in this session. Now let's put everything you have just learnt today together. The first thing we are going to go through right now is the checklist.

Check List

- ▶ Domain Name – namecheap.com
- ▶ Hosting – hostgator.com bluehost.com
- ▶ Autoresponder – getresponse.com
- ▶ Accept online payments – PayPal, 2CheckOut, ClickBank

Make sure you have all of these purchased, downloaded and in place. Firstly, your domain name which you can get from Namecheap.com. Secondly, your hosting account to host your files. You can use services like <http://hostgator.com/> or <http://bluehost.com/> for hosting your sites.

Also, make sure that your domain name server (DNS) points to your hosting account so that makes your site visible. Thirdly, you can sign up for an autoresponder account with GetResponse.com. Lastly, you should also make sure you have your different ways to accept payments online such as via PayPal, 2CheckOut or ClickBank which are some of the top online payment processors.

Tools & Programs

- ▶ Create Web Pages – Dreamweaver, FrontPage or Word
- ▶ Graphics – Adobe Photoshop
- ▶ Tell-a-Friend Script – ViralFriendGenerator.com

As for tools and programs which you can use in your computer, here are a few Adobe Dreamweaver is great for creating web pages although you can also use Microsoft FrontPage or Word to create HTML files. Fortunately, creating your own web pages do not have to be difficult or fancy for that matter because it is only a simple mini-site consisting of one page with some text, images and the video on your Squeeze page.

For graphics on the other hand, you may use Adobe Photoshop. Lastly, the Tell-A-Friend script. This is a very important component because you should make your list-building viral and not just based entirely on your own efforts; otherwise your leverage will only be one-to-one. If you want to achieve a leverage of one-to-three or one-to-five, utilize <http://ViralFriendGenerator.com/>.

The Ace List Building Plan

- ▶ Do the Squeeze Page
- ▶ Finish the Funnel: Steps 1 – 3
- ▶ Final Step: 14 Follow Up Emails
- ▶ Drive traffic and track your conversions

Now, to finally put everything you have just learnt into actionable steps, we will summarize it all in five simple steps so that you can start taking action right away, using everything you have just learnt.

Step 1: Refer to the bonuses that you received together with this Ace List Building course as a reference. It will give you a good idea of what the Ace List Building system looks like overall when you put it together.

Step 2 involves constructing your own video Squeeze page and in Step 3, finish the Quarter Quad that I spoke about previously (Steps 1 of 3, 2 of 3, 3 of 3) and when you are done at this point, you can start driving in traffic and monetize already.

However to make it completely autopilot, this is a very important final quarter, also called Step 4: the 14 Follow-up emails. It is important because we want to do everything just once, set it up and forget about it.

Last, Step 5: the only constant thing we want to do after this is to drive traffic and track conversions. This is the only full-time job you need to do and even so, as you have learnt by now; even traffic generation can be outsourced or automated for that matter so you don't have to do it all the time. You can even choose to work on it once a day or a couple of times a week and in some cases, even only once a month when you get really good at it.

In closing, Ace List Building system is a very, very powerful system for your online business. It may appear simple but the profit potential is amazingly powerful for an easy system.

Have utmost faith that this is something that almost anyone can just pull off easily, even if you are an Internet newbie. It may take you awhile to grasp and absorb everything but once you get the hang out of it, you can produce as many of these Ace List Building systems as you want for any niche and duplicate it for incredible results. You can work on one Ace List Building system for maybe once every few days and how many will you build in the end?

Will you build 2 to 3 of these a month and automate all the traffic and traffic conversions? Just imagine your profit potential can be sky high. Hopefully you have learnt and benefited a lot from this private study course and you have a lot of brilliant ideas and have jotted them down by now.
